**More Information**

This Project supports the ADB [Country Strategy and Program for Vanuatu 2006–2009](#):

Norway Registers, in association with Vinstar Consulting International (New Zealand), was contracted by ADB for the development and implementation of the framework for secured transactions resulting in the widening and improved efficiency in use of moveable assets as security for financing.

The peer-review included comments, suggested changes and additional information, which would be incorporated into the NRD draft report document to be submitted as the project deliverable submitted in 2006.

STRconsulting’s work on this project was carried out in Canada.
